Welcome to Seawhite

Thank you for joining our unique supply chain - built over a period of 50 years.

We are reaching more customers than ever, across education and retail, in the UK and abroad - drawing on record stocks, from seven state-of-the-art factory units.

We do things a little differently and our close control over materials and production pays dividends for our customers in turbulent times, providing security and value.

We set out to make Seawhite *the* sustainable choice, working with more local, ethically sourced materials and driving our production with solar power.

Seawhite is in great shape to help you make the most of 2024.

Seawhite is in a position to give you a better deal

Seawhite has developed into a global leader in the manufacture and supply of art materials, whilst remaining a thriving, independent family business.

Manufacturing over 2 million sketchbooks each year gives us material advantages. Our progress has been down to your positive choices, thank you!

Through sustainable and ethical partnership

We invest in our communities and use local materials - over 80% of our goods are made in the UK, with assured provenance and reduced carbon footprint.

A pioneer of recycling, Seawhite is part of the award winning CupCycling™ scheme and achieves the top Dun & Bradstreet score for Environmental & Social Governance.

Offering products and service tailored to your needs

Education is a very demanding environment; products need to be versatile, strong, convenient and easy to use; they also have to be affordable.

Our customers include some of the world's most celebrated artists, yet our prices are accessible to primary education.

Making at least one part of your job easier

Your order is vital to both of us and our personal approach to business is encouraged at every level, with all our team taking responsibility for your order. We take pride in delivering the kind of service we like to receive.

And together we add value

We add value at every level; from using better paper to personalisation. Our success is based on helping you to add value too.

On each of my six visits to Beijing I have taken, by special request, Seawhite sketchbooks for Kingston graduates living there! My preference is the sewn landscape format black cloth sketchbook and this seems to have become a firm favourite also with students on MA Drawing as Process here at Kingston University."

Leo Duff MA RCA, MA, Faculty of Art, Design & Architecture, Kingston University.

We have been thrilled with the range of sketchbooks developed by Seawhite exclusively for Tate - the quality of the paper and the finished products have appealed to visitors in all Tate galleries."

Market leaders for over 50 years
draw on our experience

Why do more artists and art educationalists choose Seawhite sketchbooks than any other hardbacked sketchbook?

The answer lies in the ability of people to measure quality and value. Used by Britain's leading artists over the last 50 years.

This sketchbook is the best I've ever come across in my 30 years as a professional illustrator and sketch book junkie who's been searching my whole life for the perfect sketchbook; its binding is still intact perfectly. I've soaked the pages in every kind of cruel solvent and it doesn't buckle. I've gouged it, cut and painted on the pages. It's incredible!

All Seawhite sketchbooks can be foil-blocked and this service is incredibly popular.

Logos and text are available in gold, silver, white, clear, black, grey and various colours.

Please give clear blocking instructions for every order for which it is required.

Orders received without blocking instructions will be supplied without print.

See page 106. Use codes WDIE for logos and WTYPE for text with your printing instruction.

Davison has been using Seawhite sketchbooks for over 40 years in which time they have sustained their quality and excellent value for money. They are very robust and have quality paper onto which pupils can use a variety of materials. We like the option to have our school logo on the front."

Black card is highly versatile and our high quality sheets exude professionalism.

Run of the mill black card is often like thick sugar paper - soft and grey-black; Seawhite's two options are streets ahead in both performance and appearance.

BLACK CARD HIGHEST INTENSITY

Deep black twin-wire card which has exceptional strength and even tone; great surface to work with markers and fine-liners, this is the choice of designers. Acid-free.

Seawhite Kits

Seawhite can make up custom kits and packs for you.

To get what you want, when you need it, easy communication and personal service are vital - who better to work with than Seawhite?

KITS & PACKS

Seawhite have the best stocks of essential materials and whether you are a retailer, a college or a school, we can help you meet the needs of the individual student.

Whether it's shrink-wrapping multiple sketchbooks for a retail offer or providing an extended pack for a higher level course, we have a flexible approach to assembling packs.

WHAT CAN WE DO FOR YOU?

Visit www.seawhite.co.uk where we have a range of popular kits for various courses and activities, or contact kits@seawhite.co.uk and we can help you create your own kits.

Requests for packs usually coincide with the busy summer period, so it is essential to contact us as soon as you can with your plans - this way we can discuss delivery dates and make sure that you receive materials when you need them.

EMAIL kits@seawhite.co.uk

We will be glad to help you at every step.

I would just like to say a huge thank you for the great service that I received on the telephone and with the art packs that were made up perfectly and delivered so quickly. They are great and it's saved me a huge job of making them up myself. And I'm sure the pupils will be delighted at receiving and using them when we go on our trip to Paris in February. So many thanks to you and the team there."

Joanna Coulson, Art Technician, Cardiff High School.
