# Create Inspirational Learning

**As children join your setting you will be keen to ensure that they have the best possible start to their education; that they feel safe and secure within a warm and enabling environment fully supported by skilful and responsive adults.**

At Early Excellence we are passionate about supporting young learners and committed to helping you develop the very best practice and provision for your children. Whether you are planning to refresh your pre-school classrooms or are opening a brand-new nursery, we'd be delighted to help you.

Our team of Curriculum Consultants are happy to help you to review and plan your space, and you will find a wealth of high-quality furniture, resources and storage to help you create an environment that inspires young children and fully equips all areas of learning within the EYFS.

curriculum

# Understanding Best Practice with Early Excellence

At the heart of Early Excellence lies a deep understanding of how young children learn and the importance of establishing a well-planned, play-based environment that underpins young children's development.

We offer much expertise to support staff development and specialise in helping early years teams to develop their knowledge of how the environment can be planned, resourced and managed to create meaningful learning opportunities for children.

In our Curriculum Model, carefully resourced Continuous Provision provides the foundation for rich and meaningful learning experiences with Enhanced Provision used to extend children's interests further. These two strands work seamlessly together to support child-initiated learning whilst providing the context for more focused Adult Directed activities.

*Stimulating environments to support children's self-initiated learning*
