Meet the
challenges
of the National
Curriculum

Embedding the Curriculum through KS1

As children move through KS1, you will be keen to provide them with the opportunity to build on the skills, knowledge and learning behaviours they have acquired in the EYFS, whilst ensuring that the demands of the National Curriculum are taught effectively and embedded.

At Early Excellence we support schools who are rethinking and developing their approaches to teaching and learning in KS1 and provide **expert consultancy and training** alongside **specialist resources** to enrich the learning environment.

In this brochure you will find much to help you develop an **environment that inspires children**, with resource collections that have been carefully curated to closely match key learning objectives for children in Y1 and Y2, as well as **stimulus to provoke, inspire and challenge** their thinking.

Children will be drawn to revisit learning time and time again; **reinforcing key concepts, mastering skills and making links** between areas of knowledge as they become truly **independent learners**.

Liz Marsden

& motivated
learners

Understanding Best Practice with Early Excellence

At the heart of Early Excellence lies a deep understanding of how young children learn and the importance of establishing a well-planned, rich and stimulating environment that underpins children's personal development and academic achievement.

We offer a wealth of expertise to support staff development in EYFS and KS1 and we specialise in helping practitioners to understand the link between the environment and the curriculum; how each area of provision can be effectively resourced, organised and managed to create meaningful learning opportunities.

In KS1 we focus on how provision builds on from the EYFS and offers progression, with learning opportunities closely linked to National Curriculum expectations. How to plan an appropriate balance of adult-led and child-led learning across KS1 is also key and illustrated in the model shown below.

Highly-engaging self-initiated learning with open-ended continuous provision materials

Make it Easy with a Complete Solution

To help you initiate rapid improvement we provide fully equipped provision areas and complete classrooms curated to support young children's learning.

Each area has been carefully designed to be age-appropriate and comes complete with all of the furniture, resources and storage you need to create an outstanding environment for learning.

For further information and advice about ordering a Complete Classroom, simply call us and we will help you all the way – from choosing the right size to fit your space through to helping you install all of the furniture and large equipment.

Complete Classrooms are also available online for children aged 2-3yrs, 3-4yrs and 4-5yrs.

Benefits

- Fully equipped learning environments designed with best practice in mind
- Skilfully curated provision to equip every area of learning
- On-site support to install furniture and large equipment

Developing Areas of Provision

Sand & Water Area

Solving Problems with Sand & Water

Children's desire to experiment with sand and water can lead to many rich learning possibilities across the curriculum as they investigate materials, solve problems and play imaginatively.

KS1 Curriculum

Learning Opportunities

- Measuring and comparing volume through practical investigations
- Solving problems and investigating ideas in collaboration with others
- Investigating properties of materials, using scientific vocabulary to describe what is happening
- Developing imaginative narratives through small world story play

Small Construction Area

Designing & Building with Small Construction

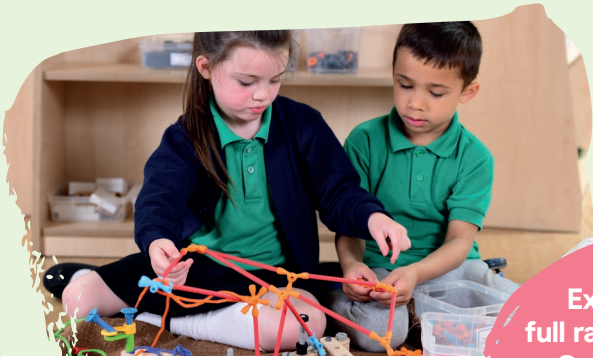

Small construction is a key feature of many KS1 classrooms and by adding more unusual, open-ended resources you can increase the level of challenge and develop children's technical understanding of structures and mechanisms.

KS1 Curriculum

Learning Opportunities

- Devising and building structures, exploring how they can be made stronger, stiffer and more stable
- Working with mechanisms – creating models that move in different ways
- Making links with real world design and objects
- Communicating ideas through talking, drawing and writing

*How does this fix together?

Our Exclusive Distribution Partnership with Frontier

To support our international shipping across the UAE, Early Excellence are delighted to be partnering with Frontier Education, a company committed to providing efficient solutions and adding value to school procurement processes.

Frontier Education are proud to utilise MOVE - The Multilevel Online-Ordering System where you will find a full range of Early Excellence products available to order.

MOVE is a user-friendly procurement solution developed with the challenges faced by schools and school groups in mind. The solution does not require complicated software or any system integration and it can be accessed anytime, from anywhere, providing flexibility, convenience and value to all stakeholders.

Contact Frontier Education for Advice & Support

Find out how MOVE can support your purchasing process and make your buying more efficient.
